

PAST REFLECTIONS

ROSE OF SHARON

Finished Block size 12"

Cut your background fabric to 13". Pin the pattern pieces along the dotted line. Transfer the design to the background fabric using your favourite method.

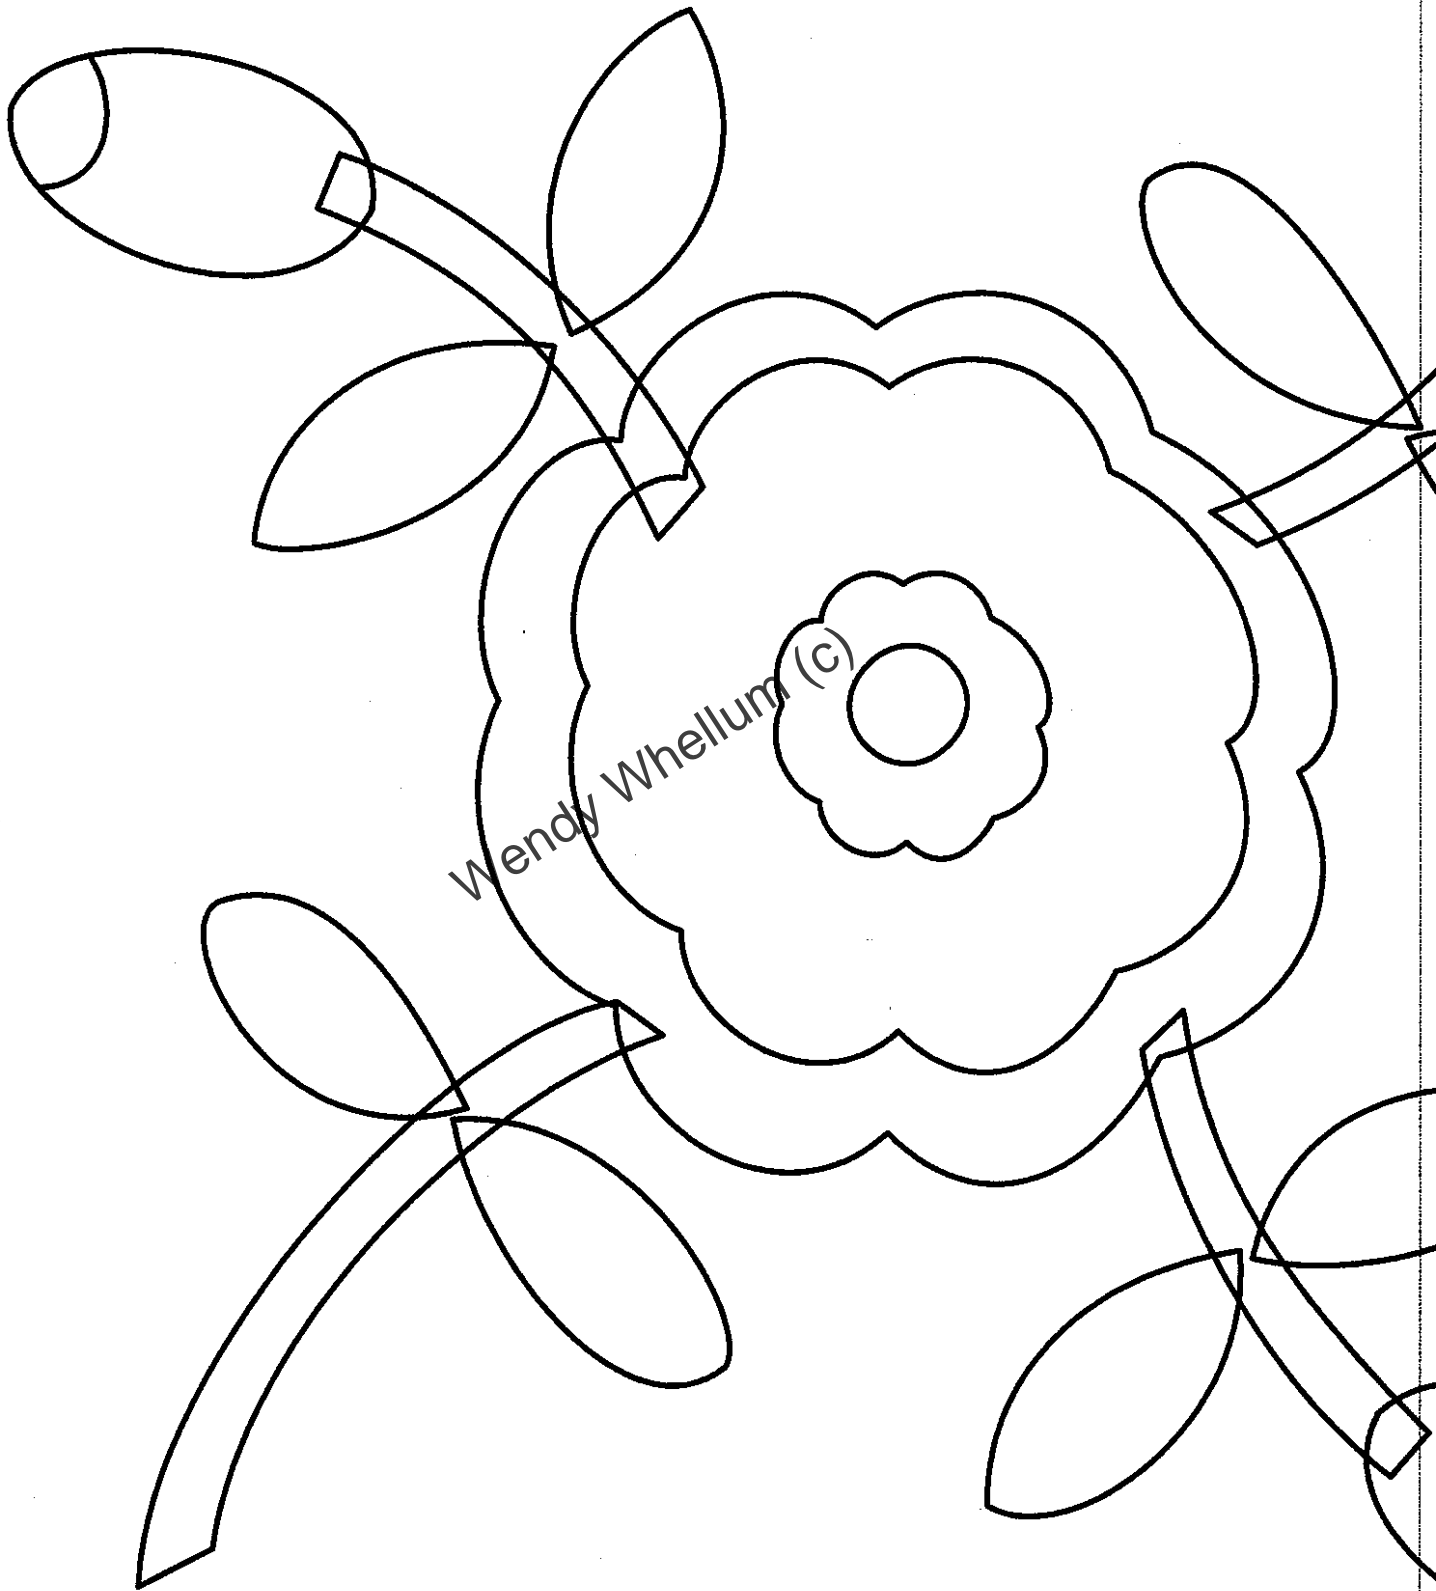

The best part to start with this block is with the leaves, and the flower buds. Once these are in place you can add the stems so that they cover the tips of the leaves. Next you can add the green part of the buds, cover the ends of the stems, and the lower parts of the flower buds.

With the flower, I have appliqued the larger, outer part of the flower, then placed the darker part over the top, and cut away the centre so that the pink shows through. Finally I added a yellow circle into the centre of the flower.

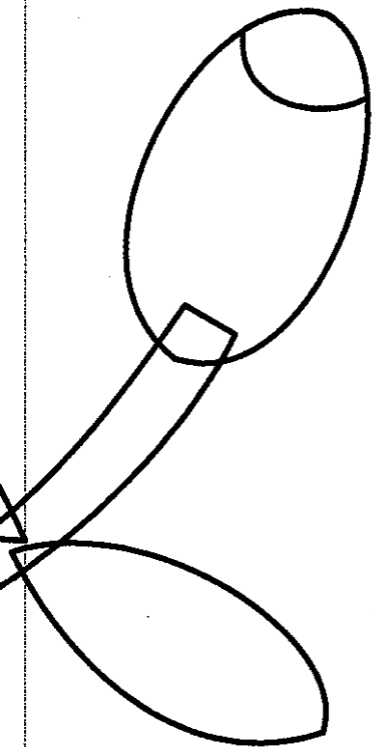

Spray lightly with water, and press face down on the ironing board.
